Expect Miller's Renomination.

It appears to be accepted by the Democratic managers both in New York and up State that Gov, Miller will be the Republican nominee to succeed himself, although he has been careful to make it clear that he has not made up his mind on the subject. It also is taken for granted that Senator Calder will be renominated.

The Tammany and up-State organizations are in total disagreement regarding the wisdom of nominating Mr. Smith for Governor. Exquisite frocks, which have about them the very air of Paris in Spring, for they were copied from the originals, for us, by a man who knows both Paris and Fashion.

The subtleties of color, silhouette, and decoration, the whimsical little things which serve almost as hall-marks of each great couturiere-these are faithfully reproduced in the sheer crepes and chiffons, the dull heavy crepes and satins, the serges and twills, which best catch and hold the inspiration of the originals.

Black is still a favorite but always made gay by some use of brilliant color; navy blue, dull green, rose, taupe, steel blue, jade green-and white, too. The only respect in which we have not
